India Rubber Goods.

SPRING TRADE, 1854.

D. HODGMAN, 57 *Maiden Lane* and 69 *Nassau Street*, invites the attention of his former customers and merchants generally to his Wholesale Rooms, to his immense stock of India Rubber Goods which he has now on hand and is daily receiving from his Factories, including

COATS, CAPES, GLOVES, PANTS, OVERALLS, LEGGINGS, CAPS, SLEEPING JACKETS,

FIRE PRESERVERS, SHIPS, CARRIAGE CLOTH, PIANO COVERS, MACHINE BELTING, ENGINE PACKING, CROTON HOSE,

And every description of Rubber Goods manufactured.

The reputation of my Goods for their superior quality is so well established as to render further commendation entirely superfluous. It is hoped no great pleasure to inform Wholesale buyers and

Rubber Clothing,

That I am enabled to offer them inducements to purchase in advance of what I have heretofore and as I firmly believe superior to any that have been, or can be, offered them elsewhere.

Orders in person or by mail will receive prompt and attention with promptness and despatch by

Choice Fruit Trees.

FOR SALE at my *NURSERY* on Centre Street, a choice lot of FRUIT TREES, most of the stock consisting of *Apple Trees*, grown in this climate, and of best varieties of Apples which have proved adapted to this climate.

Also, a quantity of HORSE CHESNUT and WEEPING WILLOW Trees.

As the Centre Street Nursery must be cleared this present spring, for the purpose of appropriating it to other uses, a fine opportunity is offered, particularly to those who wish a quantity of small trees, as well as standards, and in order to clear the land the Trees will be sold in quantities at low prices, if early application be made.

Those wishing for single trees can be accommodated with almost any variety, from this or the Nurseries of N. Harlow, Esq., in the immediate vicinity.

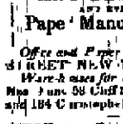
Indelible Invention!

PATENT SELF HEATING

SMOOTHING IRON!



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but females have been almost entirely neglected until the invention of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle and possess equal superiority.

Dr. Langley's Root and Herb

BITTERS.

A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for Ladies, sure to do them good.

SPRING HAS COME.

Read, consider, reflect and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with vitiated humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Languor, and General Debility. Now then, if you wish to remove all these, together with humors in the Blood and Skin, take Dr. Langley's Root and Herb Bitters—at least one or two bottles. They always do good and never hurt. Let each and every man, woman and child have a bottle at only 25 cents for a pint, 371 cents for a quart bottle.

Now Nature, herself, a sure remedy brings.
What cleanse the current of life at its spring
From fearful Diseases that lurk in the grave,
Langley's Root and Herb Bitters infallibly save.

There's scarcely a dangerous disease we call name,
In which this Root and Herb Bitters have not achieved fame,
And as safe as their actions, they cannot do wrong
While they stir up the system and act like a charm.

Whig State Convention.

The Whigs of the several cities towns and organized plantations in the State of Maine, are requested to send delegates to meet in Convention at PORTLAND, on THURSDAY, the 29th of June next, at 10 o'clock A. M., for the purpose of nominating a Candidate for Governor, and the transaction of such other business as may be presented.

The basis of representation will be as follows, viz.—Every city, town, and organized plantation, will be entitled to one delegate; every city, town, and organized plantation, having 100 inhabitants, will respectively be entitled to two delegates; those having fifteen hundred inhabitants, to three delegates; those having two thousand inhabitants to four delegates; those having twenty-five hundred inhabitants, to five delegates; and those having more than twenty-five hundred inhabitants an additional delegate for every additional thousand inhabitants—the ratio of 1850 to be taken as the basis of representation.

By order of the Whig State Committee.

MR. WASHBURN, it is now understood, will address the people of Bangor at the City Hall, THIS EVENING.

THE DANGER OF DISSOLUTION. In contemplating the idea that Southern men will dissolve this Union, if the North stands up for the rights of freedom, and sternly refuses to permit any farther extension of slavery—the N. York Times draws the following just picture of the terrible consequences of the act to the South itself—consequences which are sure to, if the day of disunion ever comes, and which, as many well be supposed, must include many a sober second thought before the fatal step is taken.

The danger of separation is for them, not for us. Our trade might be crippled and our navigation to the Gulf impeded; but what is all this, to the perils of a narrow strip of States, regarding a hostile confederacy, with three millions of oppressed men to be guarded and kept down. Within a hundred miles of that narrow line which should separate the Free from the Slave Union, there could not possibly be held a slave. All the restraints which compact, or comity, or legislation now lay upon revolutionizing the slave population would be at once removed.

Abolition documents and agents through the South, would be as common as those of democracies among the tyrannies. To rate a slave would become an act of treason to Liberty. All along that bloody border, would be hordes of men waiting every opportunity for arousing or leading the black throngs of revolutionists. Not ever an Austrian system of police could prevent it.

We are told by travellers, that the Carolina planter in his solitary house, surrounded by slave cottages, starts tremblingly at the sound of a distant gun, even though every gun has been carefully stored in the house of the master.

But what will it be, when a hostile State is on the borders, whose every principle of separation has been, dead hostility to slavery? Who will secure the planter from secret supplies of arms, scattered among the black workmen? Who will keep the negroes of the cotton in servitude, when a few hours sun carry them to a safe and welcome refuge? Foreign aid cannot be called in, for English feeling is even more hostile to the South on this matter, than the feeling of the North. Warfare could not prevent the danger, for hostilities would only wake a servile insurrection more probable to the enemy.

The most terrible of all revolutions would be forever underlying this vaunted Southern Confederacy—*a servile revolution.* Have Southern journals considered this possibility, when they talk so plusteringly of dissolution of the Union?

New Publications.

TURKEY AND THE TURKS, by *J. V. C. Smith*, author of a Pilgrimage to Egypt and Palestine, Letters from Ancient Cities of the East, &c. Boston: James French & Co. 1854

We are indebted to Messrs. Libbey & Alexander of Orono, for a copy of this interesting and timely work. It has been received with great favor by the reading public. Being an epitome of a diary kept while travelling in the East, it gives a good insight of the manners and customs of the Turks, their religious observances and superstitions—with a sketch of the history and present condition of the empire. It is an interesting book for a leisure hour.

French's New Writing Book, in three numbers, also for sale as above, is a valuable aid to young chirographers.

THE POETS AND POETRY OF THE ANCIENT GREEKS, with an Historical Introduction, and a brief view of Grecian Philosophers, Orators, and Historians: by *Ab'aham Mills, A. M.* Boston: Phillips, Sampson & Co.

This volume, of 488 large octavo pages, gotup in the admirable style of the above named publishers, is by the author of Lectures on the Literature of Great Britain and Ireland, so extensively read and highly commended by literary men. The present volume comprises the substance of eighteen popular lectures—the first of which is an able historical sketch of the country of the ancient Greek poets. It is followed by others, containing copious translations from their works, prefaced by short biographical sketches—and the volume closes with lectures upon the contemporary Paloso hers, Orators and Historians. The work is a valuable and interesting one to the classical student—general reader—and abounds with evidences of the thorough scholarship of the author.

It may be found at the bookstores of D. Bugbee.

SABBATH MORNING READINGS on the Old Testament. By *Rev. John Cumming.* Book of Genesis. Boston: John P. Jewett & Co.

This volume is a publication of great and plain expositions of Scripture, as made by the author, Sabbath by Sabbath, during his morning services. They are addressed to the pure Readers, City Missionaries, and all men of business. Dr. Cumming is a biblical writer of great popularity, learning and research, although in the present volume he has not presented strictly doctrinal or learned disquisitions for the instruction of divines, but a familiar, more particularly for the benefit of lay readers.

For sale by *L. F. Duren.*

GRAHAM'S MAGAZINE, for June, is an exceedingly interesting number. The articles upon "The Colossus and Bahamas" will be read with great interest, at the present time. The illustrated biography of George Washington by Headley, is continued, and there are various attractive tales and sketches. The engravings are of the first order.

Geo. R. Graham, Philadelphia, publisher.

The Magazine may be found at the bookstore of D. Bugbee.

HARPER'S MAGAZINE, for June, is received. It contains the usual amount and variety of excellent reading matter—much of it illustrated by fine engravings. An interesting article upon the "Holy Week at Rome" and another descriptive of the Russian Steppes, Odessa and the Crimea, are accompanied by a great number of engravings. Abbott's Life of Napoleon is brought down to the capitulation of Paris.

The Magazine is for sale at the bookstores of Messrs. Hatch & Lewis, David Bugbee, Chas Hight & Co. (successors of Geo. E. Smith), and E. F. Duren.

MR. E. E. BURNS is Agent in this city, for the Youth's Companion.

ARREST. A man calling his name William Shaw was arrested yesterday, by Officer Walker, on a charge of fraud in selling three valuable horses not belonging to him, to citizens of Penobscot county, and pocketing the proceeds, &c. He sold them some three weeks ago. Since that time Shaw has been absent, and the owner of the horses, belonging in Pittston, has appeared and claimed the property.—Shaw was passing through this city on his way up river when arrested. He was ordered to recognise in the sum of $300 for his appearance before the Police Court on Saturday next, at 3 o'clock, and for want of bail he was committed to jail.

THE RIOTERS. Before the Police Court yesterday, the following persons were ordered to find sureties in $1000 each for their appearance for trial at the Supreme Court commencing on Tuesday next, upon charge of assaulting the officers at the riot of 21st ult—viz. Joseph Burke, John Casey, Charles Dolan, Michael Givens, Patrick Linan, Timothy Sullivan, Patrick Givens, Thomas Meehan, John Caton, James Grady. The first four found bail—the others committed.

BANK ROBBERY. $4,500 were stolen from the counter of the Canal Bank, in Cleveland, Ohio, on the 24th ult. The pile of bills from which it was taken contained $20,000; but the robber was too moderate, and left the largest portion.

The Minnesota papers are already inquiring whether slavery is not legalized in their territory, by the repeal of the Missouri compromise—it being a portion of the old Louisiana Territory.

RUNAWAY. Our neighbor Low's buggy was considerably smashed, yesterday afternoon, by the running away of a young horse which was frightened by some pieces of paper flying about the street. Fortunately, there was nobody aboard, and the damage can all be repaired by Thurs.

The southerly wind of yesterday afternoon brought up a large fleet of vessels.

Varieties.

The Boston Riots.—The proposition to pension the widow of Batchelder killed at Boston in the execution of the fugitive law, was not very well received in the House. The vote of the Speaker was required to make a quorum, and the proposition was excluded from consideration, 68 to 66. Mr. Dean said others privately declared that if the House went into the inquiry, they should move to add the widows of Lovejoy, Miller and others, who had lost their lives on the opposite side of the question.

Poisoned with Brandy.—A lads of 21 years old recently died from the effects of brandy which he had been induced to drink by a man named Granger in New York. The latter was arrested, and in held to bail the sum of $1000.

Immense Bridge.—The great bridge of the Illinois Central Railroad, now approaching completion, is 3500 feet, or two-thirds of a mile, in length, 75 feet in height, and contains 1,000,000 feet of timber. The track is to pass on the top of the bridge, while between the frames runs a carriage road.

An Slave Marriage Shocking at least.—The condition of slavery has been set up as a defence for bigamy, by a colored man lately tried for that offence, in Chicago. The ground was taken that as a slave he was not capable of contracting marriage when he became connected with his first wife. The jury could not agree on the case.

The Episcopal Church at Calais, Rev. G. W. Durnell, pastor, was consecrated on the 11th ult.

Rev. Mr. Willey late of Stonington, Conn. has accepted a call from Grace Church, Bath.

Steamer Capt. Dewey, Moosehead master, has commenced running on the Schoodic Lakes.

McKay, the famous builder of the Great Republic, has contracted with English houses to furnish them with new ships to the amount of $1,000,000.

The Palmer worm is making its appearance in western Massachusetts.

A company of marines has been carried from Portsmouth to Boston, to aid in enforcing the fugitive slave law.

At Rochester, N. Y. a small child recently fell upon the railroad, just as a locomotive was passing. Its death was deemed certain; but, strangely enough, the locomotive, going slowly, pushed the child gently along, rolling it over occasionally, till the train was stopped, and the little one taken up unharmed.

Twelve Cities in one.—An important municipal change is reported in London. The city has been divided into twelve municipal districts, each having its own Mayor and Corporation.

Not much chance for good weather.—An exchange says "Woman's Rights State is Matrimony—where she is always in the majority, always reigns, and sometimes storms."

"God said the female are born alike above,
Just on the brink of danger—not before;
The danger past, both are alike required—
God is forgotten, and the device slighted."

One of the poets has immortalized the old Connecticut as follows

"Rot on, loved Connecticut, for I must thus ran—
Giving hails to old Hartford and freedom to man."

Mrs. Hollyhock was recently presented with a plate. There were beef and potatoes on it. No speeches were made.

There are two reasons why we don't trust a man—one because we don't know him, and the other because we do.

Good resolutions are like fainting ladies—they want carrying out.

You can tell how wide a man's reputation is—but not how long.

The Issue and Its Duties.

To the Editor of the Whig and Courier:

The mask has at length been thrown off and the strength and aim of the government seem to be openly directed to the extension and support of slavery. The South has found a Northern President willing to do its bidding, and to crawl in the dust of the atrocious system of human slavery, and to dare do what no Southern President would have ventured, and the slave interest of the country is improving its opportunities. Solemn compacts have been violated and impudently scorned, and the barriers erected by our fathers against the spread of slavery have been removed by the passage of the Nebraska and Kansas bill through Congress, and a Northern man has damned himself to lasting infamy by his approval of this iniquity.

The obligations of the people of the Free States to keep faith to compromises have been through a long series of aggressions of the slave power, year by year weakened, until now the defiance of the slave power has been thrown into the teeth of freemen, and they are told, more emphatics by than in words, told by significant and efficient acts, that they may do as they list, but slavery repudiates all its obligations and now relies upon its own strength.

The absorbing subjects which engross the legislation of the Union are those relative to slavery; the extension of slavery over the broad and beautiful territory of Nebraska and Kansas; the acknowledgement of the independence of the Cholos of Hayti in order to send a Minister there and buy up the government thus acknowledged, and erect it into a Slave State; the acquisition of Cuba, to erect into a Slave State, even though that acquisition may cause a war which shall destroy the commerce and business of the people, and cause the destruction of thousands of lives and millions of property; the acquisition of another portion of Mexican territory, that to establish a broad and wide region of Slave States and Territory, stretching itself far and wide, from the Atlantic to the Pacific, and leaving the Free States a mere corner in the Northeastern portion of a slavery cursed country. These measures and plans which have been consummated or are in progress, may well lead the people in the Free States to a united and energetic action—even in the teeth of threatened dissolution—if they would not be eaten up by the lean kine of gaunt and devouring slavery.

The passage of the Nebraska territorial bill is an open proclamation of the slave interests, that they are paramount to let the hand of fend off. They must be met in the same spirit, since they can appreciate no other. The spirit of the times is beyond the observance of compacts, since the abandonment of compacts by those who sought them and who gained advantage by them, cannot, in justice, hold the other party to their observance.

The issue before the country now is one vitally important for the progress of human freedom and free institutions, than when the fathers resisted to blood on the green-grown slope at Lexington. If the people of the Free States fail to speak now, they sink hopelessly into a condition of paralysis from which they will only arouse to find the dark stain of slavery blackening all their legislation, and crossing with its blight and debasement all the energies and hopes of their country.

It was a cheering thing when we learned that Boston felt at length that the last weight had been added and its spirit aroused in a manner which has been demonstrated in the recent slave case. Their out spoken indignation is but a feeble expression of the real sentiment of the people of the North and they should not fail to give it utterance against slavery legislation, slavery propagandists, and slave catchers their aiders, abettors, and sympathizers.

EX E.

MIRACULOUS ESCAPE OF RAILROAD TRAINS—RED FLANNEL DRAWERS.—One day last week Mrs. Horton, who resides three miles west of Oswego, saw a large pine tree fall directly across the railroad track. She instantly laid down the baby, called her husband from his work and they both ran to the railroad, a distance of some two hundred rods, taking an axe with them. But the tree was sound, and not less than two feet in diameter where it crossed the track, the spot being a short curve in the road, and out of view from any considerable distance. Worse than all, the time for the train to pass was close at hand. Probably at the suggestion of the wife, no women are always best at expedients, Mr. Horton took off his red flannels drawers, tore them in two, and ran up the road with one leg, while his wife ran down with the other. In a few minutes the mail passenger train approached at full speed, when it was arrested by Mrs. Horton standing on the track, waving the leg of the flannel drawers on a maiden spell. The tree was soon cut and rolled off the track, with the aid of the passengers, who proceeded on their journey; many lives and limbs, doubtless having been saved by this really kind and sensible act of Mrs. Horton.

DECISION IN A PATENT CASE. In the case of Cyrus H. McCormick vs. William H. Seymour and Dayton S. Morgan, (the Reaping Machine case,) which was tried in the Circuit Court of the United States for the Northern District of New York, at this city, in October, 1851, and in which the plaintiff obtained a verdict of over $17 000, the Supreme Court of the United States has, on a writ of error, reversed the judgment by a vote of 3 to 4, and decided, 1st: That where a patent is for a part of a machine, the rest of the machine being public property, that patentee is entitled to recover damages only for the value of that part, and not for the value of the entire machine embracing that part; and, 2d: That where a defendant infringes a patent by making and selling the patented thing, the patentee is entitled to recover as damages, not the profits of manufacturing the patented thing but only the patent fee for it.—*Albany Journal.*

INCREASED DEMAND FOR COAL.—Notwithstanding the high price of coal, the demand is still greater than the supply, which shows a very flourishing condition of the manufacturing interests of the country. The Miner's Journal makes a calculation that the demand for coal upon the Atlantic seaboard in 1854, will exceed the supply at least 500,000 tons, and that 3,000,000 tons of coal could be disposed of over and above the amount, say 3,000,000 tons that will be sent to market. The demand for coal, in the same ratio, in 1850, will fully meet a supply of 14,000,000. The reasoning may infer from this, that the earlier in the season he provides himself with coal, the less it will cost him. *Philadelphia Ledger.*

THREE GIRLS BURNED TO DEATH. Three daughters of the Rev Mr. Gerry, Methodist clergyman, residing near Harrisburg, Ky., were recently burned to death by the explosion of a can containing camphene. They were aged 20, 17, and 9 years.

Threatened Attack on Senator Sumner—Excitement at Washington.

NEW YORK, May 31.

The Washington correspondent of the Daily Times telegraphs as follows:

A strenuous and systematic effort is being made here and in Alexandria to raise a mob against Senator Sumner, in retaliation for the Boston difficulty.

The Star of this evening has two articles, the incendiary purpose of which cannot be mistaken.

Senator S. has been warned of personal danger and assured that persons bearing close relations to the Administration, are inciting the people to violence against him.

Northern men are much excited in consequence, and if an outrage is committed, there is a probability that there will be serious trouble.

XXXIId CONGRESS.

WASHINGTON, May 25.

SENATE.

On motion of Mr. Dawson, the Senate resolved to adjourn on the 3d of July next until the 3d Monday in October.

The Conference Committee on the Deficiency bill made a report, recommending that the Senate recede from nearly all its amendments, including the appropriations for Washington Water Works, Custom Houses, Marine Hospitals, the House receding from its refusal to agree to the Senate amendment to the printing law. Report accepted.

HOUSE.

On motion of Mr. Wells it was resolved that the Committee on Commerce be instructed to inquire into the expediency of repealing so much of the 4th section of the Act of the 2d of March, 1831—to regulate the foreign and coasting trade on the North-eastern and North-western frontiers, and for other purposes—as prohibits the receipt of commissions by the officers of customs on said frontiers on goods entered at their offices and paid there at.

Mr. Phelps, from the Committee of Conference on the disagreeing amendments to the Deficiency Bill made a report which was agreed to.

The House of Representatives has some 800 private bills to consider, besides public business of importance, and will, it is thought, refuse to concur in the Senate resolution to adjourn on the 3d of July.

The action of the Senate occasions much speculation.

ARTIFICIAL PEARLS. An oyster or mussle in which artificial pearls are formed by the Chinese, has recently been sent to England. They are formed by introducing pieces of wood or baked earth while the animal is alive, which irritating it, causes it to cover the extraneous substance with a pearly deposit. Little figures of metal are frequently introduced, and when covered are valued by the Chinese as charms. The figures generally represent the idol Buddha, in a sitting posture. The oysters sometimes contain as many as 18 or 20 pearls.

A letter from Key West, received at Savannah, says the yellow fever had been prevalent there for two weeks, but was abating.

The medium clipper ship Superior, 1259 tons burthen, built at E. Boston recently by Messrs. Sampson, has been sold to a Philadelphia firm for $80,000 cash.

A collection has been taken up in some of the churches at St. John, N. B., for the benefit of the wives and children of the British soldiers engaged in the eastern war.

Holloway's Pills—Extraordinary Cure of Palpitation of the Heart.—Professor Holloway, of 30 Ann street, New York, had the pleasure of receiving from Mr. John Baker, of Blues street, Boston, a letter, dated March 17th, 1854, which is subjoined, verbatim. "Dear Doctor: Your Pills are entirely good. A few years ago I was under the treatment of Dr. ——, of this city. I suffered with palpitation of the heart to an alarming extent that I was frequently obliged to abstain from any kind of exercise, mental or bodily, for weeks together. A short time since I was seized with violent a chill and spitting of blood, I, of course, went to my old friend, but finding him out I went into the store of Redding & Co., of this city, for a newspaper, and accidentally saw several boxes of your Pills there; I purchased one took a few doses, and the result was very favorable. By persevering with them I was entirely cured, and have to thank you for now enjoying good health. J. BAKER.

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs. We refer to "Dr. Curtis's Hyperion, or Liquid Lung Expanding Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks—It is evident that inhaling—constantly breathing an agreeable vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeine is for sale at all the druggists throughout the country.—[From the New York Merchants of January 14th.

Latest News.

PROCLAMATION AGAINST FILLIBUSTERING.—The Mercury of yesterday has a dispatch announcing a proclamation from President Pierce against all persons engaged in fitting out military expeditions against Cuba. He says:

"The general government claims it as a right and duty to interpose for the honor of its flag, and the preservation of the public security from whatever quarter unchecked, and it will not fail to prosecute with due energy all those who, unmindful of their own and their country's fame, presume thus to disregard the laws of the land and all treaty obligations.

All officers of the United States are called upon to exert their lawful powers for maintaining the authority of the government and preserving the peace of the Union.

It is to be hoped the proclamation will be more effectual than in the case of Lopez.

KENNEDY'S

Liver Invigorator

The Greatest of the Age!

M. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that will *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all of the most respectable citizens of Roxbury, Dorchester and the adjoining towns. The certificates attached to large bottles are of individuals who have been cured in a variety of cases, in a few days, of running sores, ulcers, salt rheum, scurvy, erysipelas, blotches on the face, and disfiguring eruptions, after having been given up by the most eminent physicians as incurable. In fact, in all cases of Scrofula or Humor, from the worst to the slightest, this remedy will be found to do its work of purification and cure speedily, surely and permanently. Its power over Scrofula is wonderful. Even the most inveterate cases, that have been pronounced incurable by the most skilful physicians, have been cured by it. Its power over Erysipelas, Blotches, Boils, Pimples, Tetter, Salt Rheum, Ringworm, Scald Head, Sore Eyes, Sore Ears, Scurvy, Ulcers, Fever Sores, Sore Legs, Rheumatism, Dyspepsia, Sick Headache, Female Complaints, Piles, Fistula, Dropsy, Gout, Neuralgia, Tumors, Consumption, Liver Complaint, Jaundice, Mercurial Diseases, Fever and Ague, Chronic Diarrhœa, Dysentery, Kidney Complaints, Nervousness, Debility, Sleeplessness, Female Weakness, Irregularities, Suppressions, Whites, Nervous Affections, Headache, Pain in the Side, Back and Limbs, Sore Throat, Coughs, Colds, Influenza, Bronchitis, Asthma, Spitting of Blood, Pain in the Breast, Liver Complaint, and all diseases arising from a disordered state of the Blood and System, it has never been known to fail. Explicit directions accompany each bottle, so that any one can use it with perfect safety and success. It is purely vegetable, and contains no mineral whatever. It is the most powerful blood purifier in the world, and will positively remove every impurity from the blood, whether it be Scrofula, Humor, Bile, or Disease of any kind, from the system, if taken according to the directions. Let the sick and afflicted try it, and be convinced that there is a remedy for disease. Let the poor and destitute try it, and be convinced that it is the cheapest medicine in the world. Let all try it, and be convinced that it is the best medicine in the world. Let all who have used it, and been cured of their diseases, recommend it to their friends and neighbors, that they may be cured also. Let all who have been made sick by quack nostrums, and by the use of mercury, try it, and be convinced that it will cure them. Let all who have been made sick by the use of Sarsaparilla, Iodide of Potash, Mercury, Bitters, Pills, Syrups, Cordials, Panacea, Extracts, Tinctures, Drops, Elixirs, Balsams, Lozenges, Cubebs, Copaiba, Arsenic, Nitrate of Silver, Hydriodate of Potash, Nitrate of Potash, Sarsaparilla, Colchicum, Lead, Opium, Morphine, Quinine, Strychnine, Tobacco, Prussic Acid, Aconite, Belladonna, Cicuta, Digitalis, Hemlock, Lobelia, Stramonium, Conium, Veratrum, Iodine, Bromine, Chlorine, Cinchona, Ether, Chloroform, Creasote, Henbane, Ammonia, Assafœtida, Benzoin, Camphor, Capsicum, Castor, Catechu, Cinnamon, Colocynth, Ergot, Galbanum, Gamboge, Guaiacum, Ipecac, Jalap, Kino, Myrrh, Nutmeg, Rhubarb, Saffron, Squills, Valerian, Zinc, Copper, Lead, Iron, Steel
